

EN ROUTE FOR AALTEN*by Theo Somsen [227]*

In De Achterhoek there are quite few organisations that concentrate on the history of the area. One of the organisations is the Historic Study Group Aalten-Dinxperlo-Wisch (ADW). It is a very active and versatile organisation, publishing, amongst other things, a very beautiful 60-page magazine of only \$ 11,00 three times a year.

Magazine ADW, December 2001

This year ADW has existed for 40 years and that is a reason for a celebration of course. There will be a grand jubilee day, characterised by a market where they themselves, as well as other organisations and private persons may show what they are doing. So a sort of information market with lots of interesting things in the field of regional history. From traditional costume to ancient tales, from demonstrating how to build a traditional midwinter horn to cooking regional dishes, from ancient writing symbols to genealogy etc. And of course there will also be music.

Our Somsen Foundation will also be present at this anniversary with a booth of our own. We have got quite a few interesting items to show as for data and products after all. Just think of our family book, our magazine, our video, our website and our genealogical database. But also for you this ADW anniversary may be a fascinating acquaintance with what is going on around you in De Achterhoek.

Therefore we strongly recommend visiting this jubilee on Saturday, November 16, 2002!
